

ADAS Camera AXG-ADAS-S2

Features

1. SOI H65 CMOS Image Sensor: Ensures high-quality image capturing.
2. Full HD-720P: Provides high-definition video resolution.
3. 2D Noise Reduction (2D-NR): Enhances image clarity by reducing noise.
4. Color Image: Captures images in color.
5. Compact Design: Designed for easy integration into vehicle systems.

Technical Features

1. Sensor: 130W CMOS Sensor.
2. Focal Length: 3.6 mm.
3. View Angle: D=85°, H=60°, V=53°.
4. Signal Type: PAL.
5. Operating Temperature: -25°C to 75°C.
